

January

Publishing January 4, 2010

Advertising Deadline November 18, 2009

This annual publication recounts the breadth of industries that make Clark County and Southwest Washington such a vibrant business community. The Book of Lists has become The Source for information on companies doing business here and how they stack up against their competitors. A must have for anyone involved in the Southwest Washington business marketplace.

Health Resource Guide

Publishing February 5, 2010

Advertising Deadline December 23, 2009

The only local medical services directory to provide a perspective about and listings for both western medicine and alternative care providers, the Health Resource Guide clearly demonstrates how the two approaches to health care complement each other. Distributed to the business decision makers via the Vancouver Business Journal as well as in clinics and pick-up locations around the region, the Health Resource Guide delivers an involved readership.

VBJ Special Growth Edition April 30, 2010

Advertising Deadline April 22, 2010

This annual program recognizes innovators and successful, growing businesses in Southwest Washington and is featured in our annual edition dedicated to the region's growth. Since its inception in 2005, businesses with local branches of national corporations as well as single-location, privately held retailers have been acknowledged. The daily challenge of business is all worthwhile when the business succeeds. The Southwest Washington Business Growth Awards makes a great centerpiece for this annual edition highlighting examples of area businesses who innovate and grow.

A robust economy invites capital investment and the annual Top Projects magazine and recognition event chronicling the developers and contractors leading the way with the most significant investments of the year. Seen as the "Annual" of the Design & Construction community, Top Projects is the place to be for those in the building industry – commercial, industrial and residential. The Top Projects event now offers builders and developers a chance to see what the latest innovations are in sustainable building practices in the Green Building Expo. Manufacturers, sub-contractors and distributors are all on hand to provide the latest Green products and ideas.
